

# EBU

**European Broadcasting Union**

$$precision = \frac{||recommendations \cap actual||}{||recommendations||}$$

$$recall = \frac{||recommendations \cap actual||}{||actual||}$$

$$F1 = \frac{2 \cdot precision \cdot recall}{precision + recall}$$

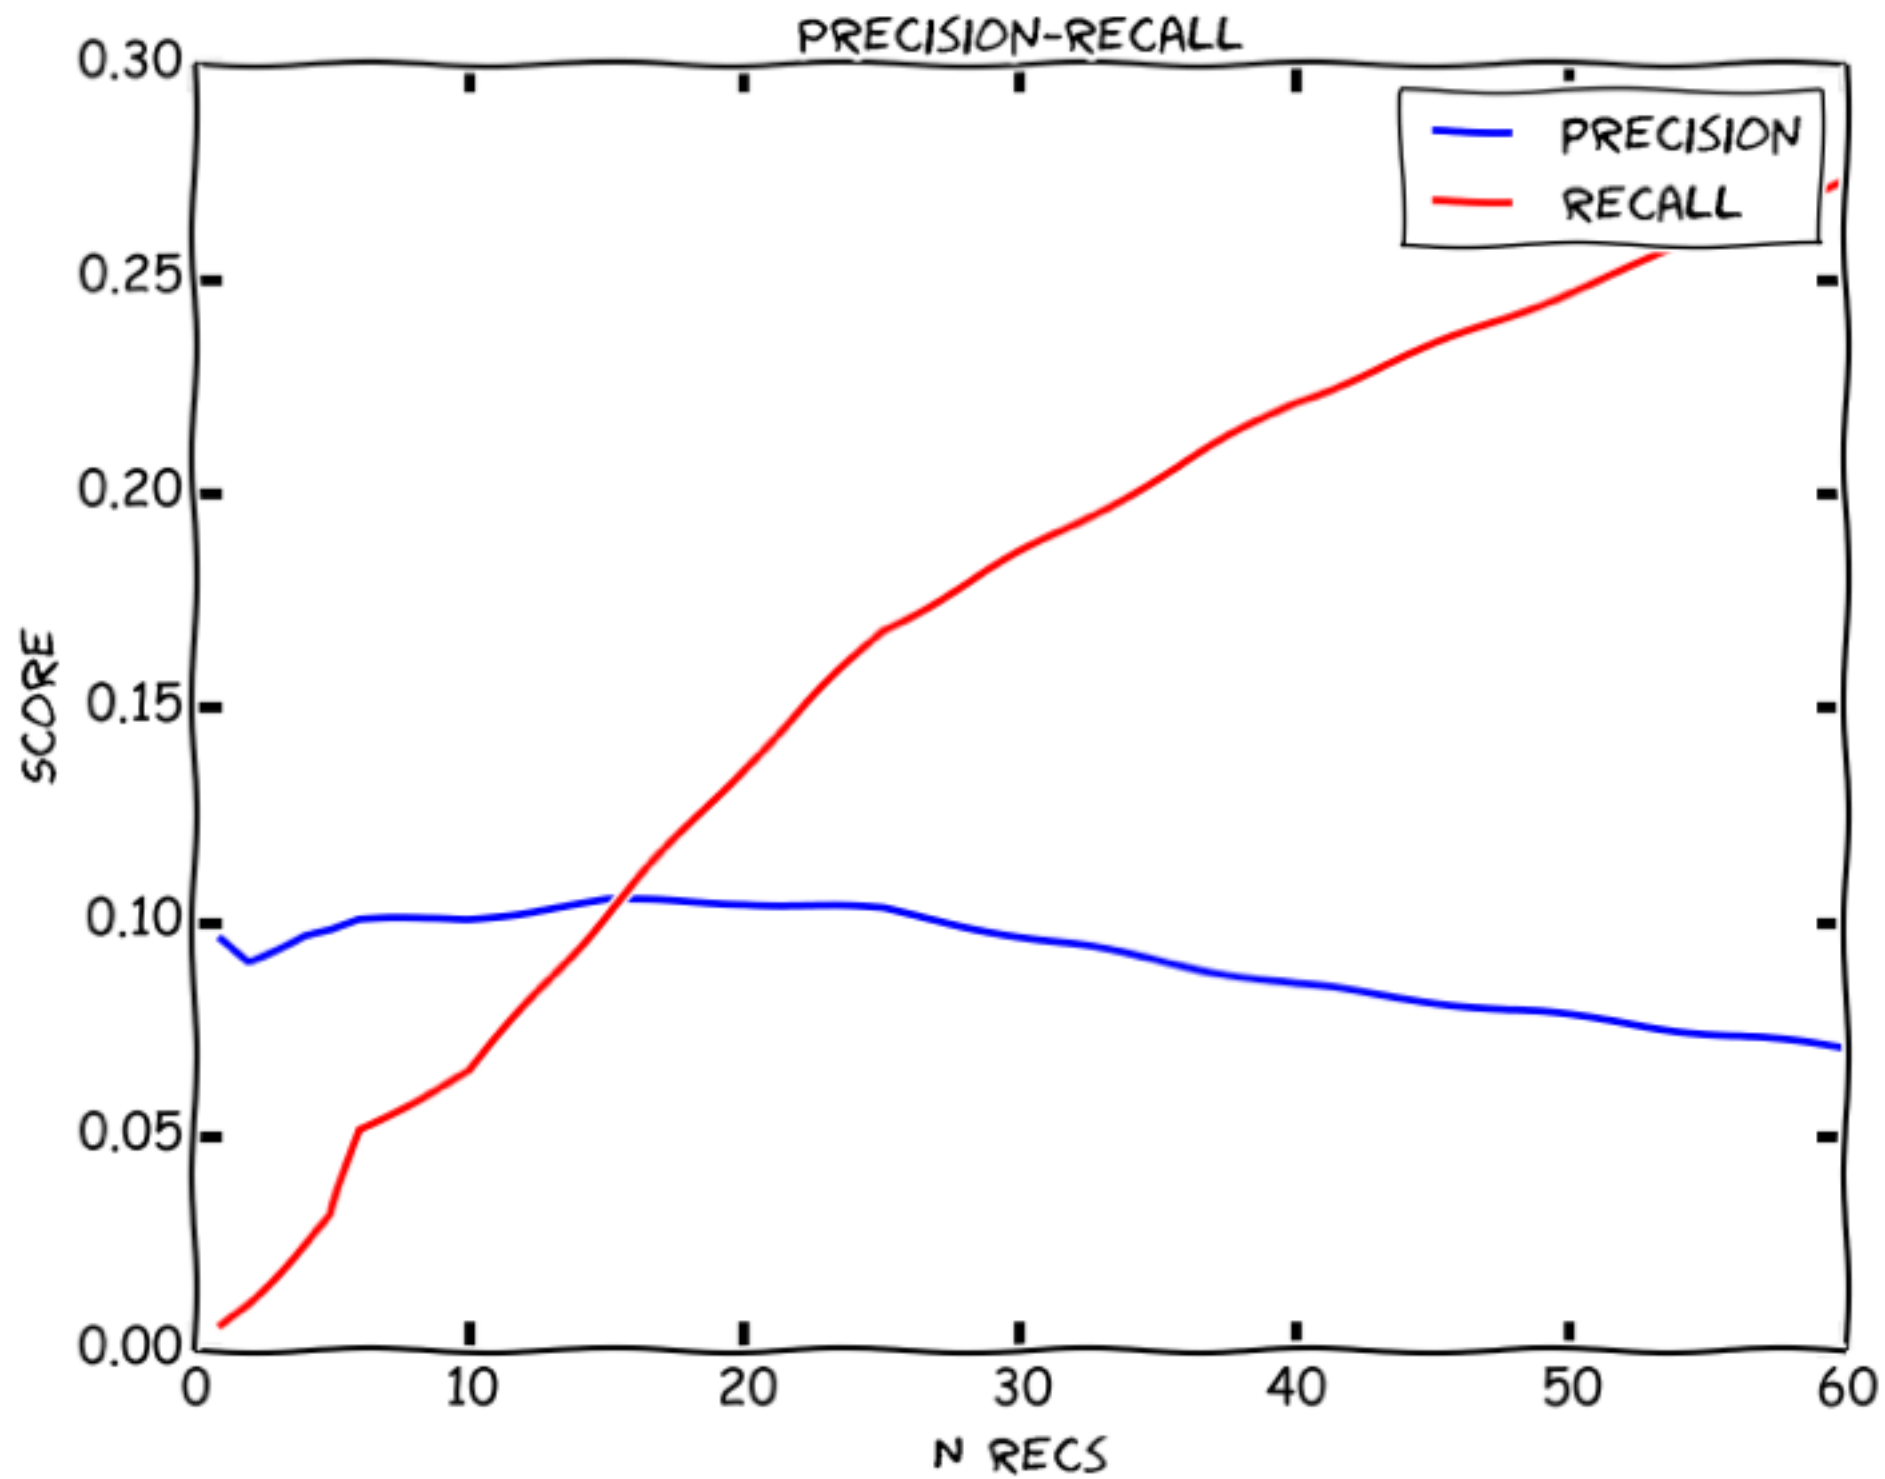

**Set  
retrieval**

A large blue circle is centered on a white background. Inside the circle, the word "Metrics" is written in a bold, black, sans-serif font.

**Metrics**

Increasing number of

given recommendations
